ABOUT OUR COMPANY

IBCT offers a comprehensive range of services designed to meet the diverse needs of its clients. The yard specializes in chemical floor washing, refurbishing, and high-pressure steam washing, ensuring that containers are thoroughly cleaned and maintained. These services are not limited to dry containers; the yard also provides specialized cleaning and repair services for reefer containers and tank containers. This versatility ensures that all types of containers are maintained to the highest standards of cleanliness and functionality.

A dedicated **24/7 Maintenance and Repair (M&R) team** is a cornerstone of the yard's service offerings. This team is responsible for categorizing available and damaged containers, ensuring that all maintenance and repair activities are conducted promptly and efficiently. The M&R team's round-the-clock availability underscores the yard's commitment to minimizing downtime and ensuring the continuous flow of cargo.

24 X 7 OPERATIONAL COMMITMENT

IBCT specializes in the trading and leasing of containers, handles a wide variety of container types and sizes, accommodating diverse cargo requirements.

DRY CONTAINERS

REEFER CONTAINERS

OPEN TOP CONTAINERS

FLAT RACK CONTAINERS

ISO TANK CONTAINERS

INFRASTRUCTURE AND EQUIPMENT

The yard is equipped with **three Hydra Cranes**, each with a **capacity of 12 metric tons**, ensuring swift and efficient handling of containers for seamless loading and unloading operations. Additionally, we have **6 reefer points** to support refrigerated containers, **2 forklifts** for versatile material handling, and **one 65 kVA gensets** to provide reliable power, ensuring uninterrupted operations.

We utilize appropriate, state-of-the-art equipment for all repairs and cleaning tasks, including high-pressure water jets and steam cleaning machines.

Covered workshops are available where necessary, ensuring that repairs can be conducted in all weather conditions.

All surveys and repairs are carried out by qualified, trained, and experienced staff, with each depot staffed by a team of IICL-certified inspectors to ensure the highest standards of quality and safety.

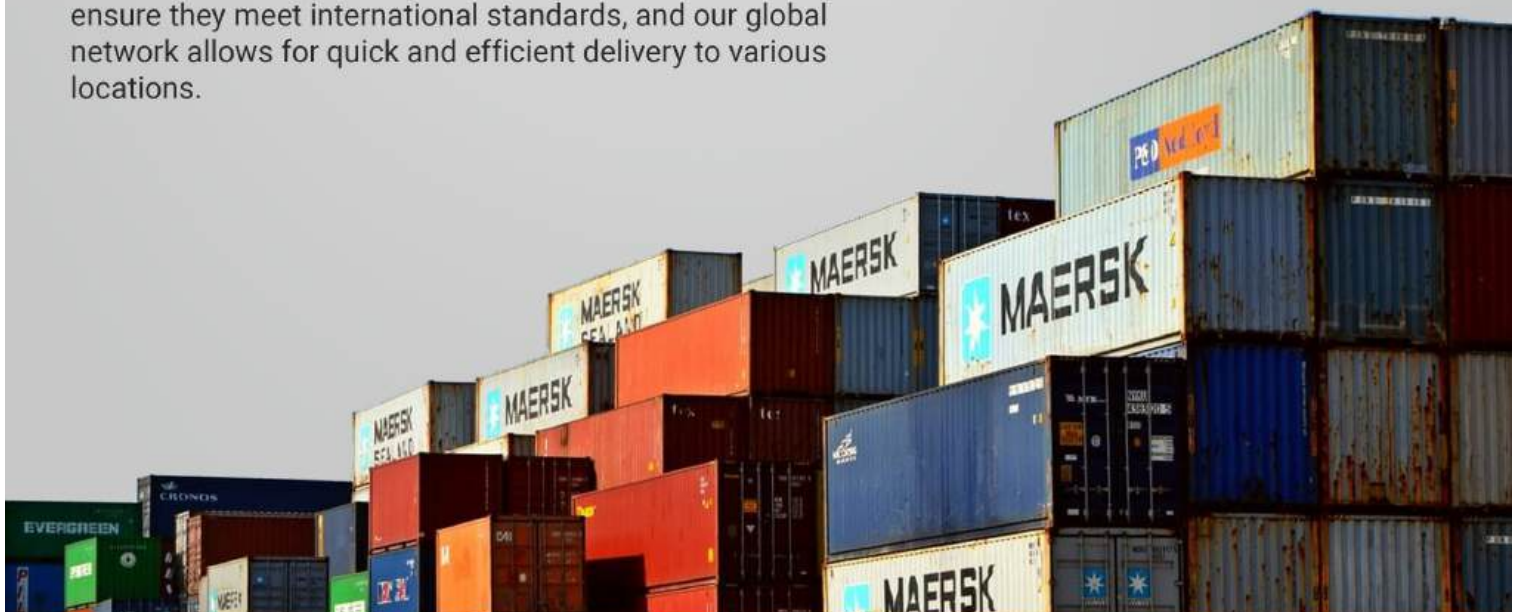

PRECISION HANDLING TOOLS

INDU BHARAT CONTAINER TERMINALS

In addition to our comprehensive container services, we handle timber efficiently and safely, ensuring proper storage and transport of this essential material. Furthermore, our yard is capable of handling project cargo, including oversized and heavy cargo, ensuring that even the most challenging shipments are managed seamlessly.

IBCT offers a wide range of high-quality containers for trading and leasing, including standard and specialized options. We provide flexible leasing terms, competitive pricing, and customized solutions to meet specific client needs. All containers undergo rigorous inspections to ensure they meet international standards, and our global network allows for quick and efficient delivery to various locations.

DIVERSE CONTAINER SOLUTIONS

OPERATIONAL EXCELLENCE AND TRACKING SYSTEMS

SAFETY STANDARDS

At IBCT, safety is our top priority, and we have established a production-driven safety culture that permeates every aspect of our operations. Our comprehensive communication framework ensures that safety protocols are effectively communicated across all levels of the organization, fostering a collaborative approach to maintaining a secure work environment. We utilize detailed process mapping to identify potential risks and implement preventive measures, while our high-wind precautions protect both personnel and cargo during adverse weather conditions. Regular and ongoing safety awareness training is provided to all staff, ensuring that our team remains vigilant and well-prepared to handle any situation. This commitment to safety and standards ensures that we consistently deliver reliable and secure services to our clients.

ROBUST SAFETY PROTOCOLS

STRATEGIC LOCATION AND AREA

IBCT stands as a paragon of efficiency, innovation, and reliability in the logistics and container handling industry.

IBCT has established itself as a vital node in the supply chain network, serving the bustling port city of Tuticorin and beyond. **Spanning an impressive 5 acres of land, with plans for future expansion up to 15 acres**, Indu Bharat Container Terminals Yard is poised to meet the growing demands of global trade.

One of the foremost advantages of IBCT Yard is its strategic location. Situated a mere **7 kilometers from Tuticorin Port**, the yard enjoys unparalleled accessibility to one of India's most important maritime gateways. This proximity significantly reduces transit times, enhancing the efficiency of container handling operations.

FUTURE-READY EXPANSION

FABRICATIONS

IBCT understand that every client has unique requirements when it comes to living and working spaces. That's why we offer customizable container fabrication solutions to meet diverse needs. From home offices and studios to full-fledged residential units, our containers can be tailored to include various features such as insulation, plumbing, electrical systems, and interior finishes.

Our container homes and offices are more than just structures; they are innovative living and working solutions designed for the modern world. Each project is approached with creativity and attention to detail, resulting in spaces that are both functional and aesthetically pleasing. With features such as energy-efficient systems, smart technology integration, and contemporary design elements, our container spaces are designed to meet the demands of today's dynamic lifestyles.

STUNNING FABRICATION QUALITY

GOH CONTAINERS

IBCT also deals with Garments on hangers (GOH) containers are used for shipping high-quality garments. These containers give customers the option of using a string or bar system, or a combination of both.

The GOH containers offer increased flexibility, greater internal load capacity and savings on transportation and handling costs. GOH containers are available in 20' and 40' sizes.

Specific dimensions and capacity of garments on hangers containers may vary depending on the container manufacturer, the age of the container and the container owner.

The specifications listed below are, however, representative for the majority of these containers.

20' GOH container

Tare weight	Payload capacity	Cubic capacity	Internal length
2,300 kg	28,180 kg	33.2 m ³	5.9 m
Internal width	Internal height	Door opening width	Door opening height
7.7 ft	7.9 ft	7.7 ft	7.5 ft

40' GOH container

Tare weight	Payload capacity	Cubic capacity	Internal length
3,750 kg	28,750 kg	67.7 m ³	12.03 m
Internal width	Internal height	Door opening width	Door opening height
7.7 ft	7.9 ft	7.7 ft	7.5 ft

OUR VISION

To become a leading provider of world-class container terminal services across India, fostering seamless global trade connections through strategic expansion and innovation.

OUR MISSION

To establish state-of-the-art container terminals in Chennai, Cochin, and Mundra, delivering efficient, reliable, and sustainable logistics solutions. We aim to enhance the supply chain ecosystem by leveraging advanced technology, skilled workforce, and unparalleled customer service.

OUR GOAL

To successfully launch and operate container terminals in Chennai, Cochin, and Mundra within the next one year expanding our network and capacity to handle increased cargo volumes. Our goal is to set new benchmarks in operational efficiency, safety, and customer satisfaction in each of these key maritime hubs.
